

KESSEBÖHMER
CLEVER STORAGE

BRIGHT IDEAS
FOR BEAUTIFUL KITCHENS

WE ARE A STRONG
PARTNER FOR YOUR
BUSINESS.
KESSEBÖHMER

The name Kesseböhmer stands for innovative solutions and a powerful blend of design, function and quality. Today the Kesseböhmer group is still owned and managed by the current generation of the founding family.

Our core competence is in metal processing. We work with wire, flat band and tubing and our products are finished in our in-house electroplating and powder-coating facilities. Strong customer orientation has helped us to achieve and maintain our position as the leading supplier of functional fittings for kitchen units.

We supply elegant, high quality solutions for brilliantly organised kitchen storage. Our solutions help end users to make best use of available space and to streamline work processes. These benefits are strong selling points for kitchens.

In addition, kitchen manufacturers and kitchen fitters profit from the simplified assembly and easy adjustment of our pull-outs and other fittings. Many of our products are assembled without tools using snap-on connections. It saves time and ensures that the end result meets the highest standards.

Kesseböhmer has a high level of vertical integration, with all production processes in-house. We also engineer and build key elements of our production machinery and tooling. This strategy cuts development time from a new idea to a quality product:

Functions that delight. Designs that impress.

Quality that sets standards.

TALL CABINETS PERFECT STORAGE

On the way up. In today's kitchens, highboards are planned either as a block or as self-contained units. Often this strikingly modern unit is where you will find the technology.

CORNER CABINETS EASILY LOADED FROM THE TOP

Thanks to Kesseböhmer, corner units have taken a turn for the better. They are now firmly established as classic storage areas in a kitchen plan.

GOOD IDEAS FIT IN EVERYWHERE BASE CABINETS

To make intelligent use of the whole width of a kitchen, you need a fitting that moves the stored items out in front of the cabinet – so that you have a clear view and easy access.

MiO MY INTELLIGENT ORGANIZATION

Creating a system that is right for any size of room requires creative flexibility in planning and an innovative look – with functionality and style that is right for any area of your home, even wet rooms.

ARENA style – FINE DESIGN AND PERFECT WORKMANSHIP

People choosing a new kitchen set a high priority on attractive design – also for the interior fittings – as an important purchase criterion. This means that function and optics should blend in a homogenous whole, the interior fittings must harmonise with the overall kitchen design.

Our design ARENA style design is used throughout – in larder pull-outs, and in corner, base and wall units. It combines optimal functionality and elegant optics with maximum space utilisation – thanks to the railing being attached to the outer edge of the tray.

reddot design award

ARENA plus anti-slip coating – WELCOME TO THE QUIET KITCHEN

— KESSEBÖHMER —

Kesseböhmer developed the special ARENA plus coating which prevents pots and pans, crockery and groceries slipping and sliding when a pull-out is opened or a carousel turned. All ARENA trays are supplied with the optional anti-slip coating.

ARENAplus

SoftSTOPP, SoftSTOPPplus & SoftSTOPPpro – GENTLE DECELERATION AND NOISELESS CLOSING

 KESSEBÖHMER

SoftSTOPP, SoftSTOPPplus & SoftSTOPPPro provide the best combination as a high-performance damping system for cabinets designed to take high loads.

The SoftSTOPP range harmonizes movement sequences.

SoftSTOPP delivers damped closing.

SoftSTOPPplus delivers damped closing plus self-closing.

SoftSTOPPPro delivers damped opening.

Your benefits in brief:

- more flexibility and ease-of-use in the kitchen
- the only larder pull-out with Synchronomatic

Synchromatic: THE NEW STANDARD FOR PERFECT CLOSING IN A BUSY KITCHEN

 KESSEBÖHMER

This innovative synchronization system makes sure that the segments of the runner always automatically line up in “zero” position – regardless of whether the pull-out is opened fully or partially. Closing will always be optimal.

ClickFixx: MAKING ASSEMBLY FASTER AND SIMPLER

 KESSEBÖHMER

It is simple and fast. The new ClickFixx system for CONVOY, DISPENSA, LeMans II, MagicCorner, REVO 90° and FREELift cuts assembly time and guarantees a high standard. Both the front panel and the support frame connector are clipped on in a rapid, toolless process! And then all it takes is a screwdriver for gap adjustment.

KESSEBÖHMER PRODUCTS

Quality is and will always remain the investment with the highest returns.

Clever Storage – A specialist in every cupboard. A cupboard is rarely just a cupboard – certainly not in the kitchen! Content-specific fittings, exactly matched to the contents, are the best solution: for your pots and pans, glasses and plates, and naturally your groceries! A well-organised stock of dry foods is the best recipe for planning and cooking great meals. Clever Storage is an approach which ensures that, in your kitchen, there is a place for everything – well-organised and easy to find and retrieve. It is the perfect combination of the practical and the stylish – and it saves space and time. See for yourself!

” KESSEBÖHMER TALL CABINETS

On the way up. In today's kitchens, highboards are planned either as a block or as self-contained units. Often this strikingly modern unit is where you will find the technology focus and also the central food storage in the kitchen. Oven, steam oven and microwave can all be integrated in a highboard block, as can the food storage "mixed double" – the refrigerator and grocery cupboard.

CONVOY – MAKES DREAMS COME TRUE

 KESSEBÖHMER

Groceries must be stored so that individual items can be located and retrieved easily

Fresh food need to be kept cool

Mixed double: FRIDGE + LARDER UNIT

 KESSEBÖHMER

The **CONVOY** from Kesseböhmer provides space enough to store all the groceries for a household in one centrally positioned unit with a very small footprint. A light touch moves the entire contents out in front of the unit – for a clear view from either side and very fast access. It makes kitchen work much easier, it saves time and effort and it avoids the risk of items being forgotten at the back of a cupboard.

Together the fridge + CONVOY create a complete storage centre in a contemporary fitted kitchen. **Accessible 24 hours a day, 7 days a week.**

larder unit

fridge

CONVOY Lavido WILL WIN HEARTS WITH STRAIGHTFORWARD AND OPEN APPROACH

KESSEBÖHMER

The **CONVOY Lavido** makes a great impression. CONVOY Lavido is a storage system “made for life” because of its multiple uses – in contemporary kitchens, in living and dining rooms and as a key element in a home office.

What is so special about the CONVOY Lavido? CONVOY Lavido is not attached to the front panel, so that it is perfect for many

different designs and applications, for example, behind sliding doors. Not only are all the contents in clear view, they are virtually “presented” to the user. Discover the many beautiful and practical details. Be inspired!

the lightest touch!"*

CONVOY Premio: EVERYTHING IN EASY REACH

KESSEBÖHMER

Extremely flexible and very good looking.

The CONVOY Premio highlights the versatility of the whole CONVOY family. The CONVOY Premio moves independently of the front panel, so that it combines perfectly with different cabinet concepts – behind sliding doors, for example.

This tall pull-out is an elegant storage solution not only for contemporary kitchens, but for wider use, for example, in dining rooms or offices. A number of intelligent details make it a high-end technical product.

eTouch

ELECTRONIC MOTION SUPPORT INTUITIVE AND RETROFITTABLE

eTouch OPENS UP CUPBOARDS – AND NEW POTENTIAL. IT'S NEVER BEEN SO EASY AND ELEGANT TO OPEN STORAGE UNITS! Gentle pressure anywhere on the front panel – use your hand or even your elbow or knee – starts the fully automatic opening sequence. In any storage unit – from tall cabinet to wall unit eTouch operates smoothly with the proven Kesseböhmer pull-out and lifter technology. That's why it's also quick and straightforward to retrofit.

Depending on the fitting, the cabinets can not only be opened but also closed!

In addition to big gains in convenience and user-friendliness, eTouch offers new potential for kitchen planners. No-handle cupboards that open automatically and effortlessly are right in line with the trend for streamlined kitchen designs and smooth runs of kitchen fronts. But above all, eTouch makes kitchen work far easier day in, day out.

WITH ANY AUTOMATED PROCESS, **SAFETY** IS OF PARAMOUNT IMPORTANCE

There's no risk of a collision with the front of a second wall or base unit installed at right angles to the first, because the sensors communicate wirelessly with each other.

The fact that the eTouch system needs no reaction gap between the front panel and the carcass helps to simplify kitchen planning, for example, when highboards with different functionality stand side-by-side. eTouch works perfectly with units fitted with seals.

MODULAR STORAGE FITTING
FOR TOTAL FLEXIBILITY

TANDEM side

100% MODULAR

THE NEW TANDEM SIDE DOOR SHELF IS A KEY ELEMENT IN A NEW BUILDING BLOCK SYSTEM THAT CREATES ULTRA-FLEXIBLE STORAGE FITTINGS. A wide choice of modules and different Kesseböhmer products can be combined to create custom storage fittings from standard components. The resulting fittings will exactly match customer requirements – both in value and in functionality.

Part of the appeal of the new door shelf is the fact that it continues to use existing building blocks and products. It can be fitted on its own, paired with the existing TANDEM pull-out shelf, and/or upgraded with the customer's choice of YouBoxx sets. Trays and Youboxxes can be hooked on to the TANDEM frame at user-selected heights.

PERFECTLY TURNED OUT: TurnMotion II

 KESSEBÖHMER

With **TurnMotion II**, the fitting revolves effortlessly to move any side round to face you. Each tray turns individually by 360° in either direction so that the contents on all four sides move into clear view and easy reach.

This fitting is an ultra-practical solution for storage space that is above the ergonomically accessible height. It's also perfect for the often under-utilized space above integrated appliances.

Stops on each of the four sides lock the tray temporarily in position so that items can be lifted in or out safely. TurnMotion II trays are height adjustable so that you can position them at the height you need. TurnMotion II comes ready prepared for fast, zero-error installation.

The TurnMotion II design concept puts the highest priority on quick and easy assembly and effortless, reliable operation.

The mounting strips are simply screwed onto the carcass sides. This can be done either ahead of the carcass press or later on-site while the kitchen is being installed.

The trays with the premounted support arms are then hooked securely into the mounting strips. No tools required!

TurnMotion

Turntable fitting for storage units,
set consisting of:
2 trays with support arms
2 mounting strips
incl. screws

Cabinet width (mm)	Colour gallery/bottom	Art. No.
600	Chrome/Ice White	235223 0005
600	Anthracite/Anthracite	235223 9846

Your Benefit:

- Full access to all the contents
by turning the trays.
- No need to clear away front items to
reach items at the back.
- Excellent overview of all the contents.
- Well-organized thanks to a
perfect overview.

KESSEBÖHMER CORNER CABINETS

Thanks to Kesseböhmer, corner units have taken a turn for the better. They are now firmly established as classic storage areas in a kitchen plan.

A corner unit is the ideal place to store pots and pans, mixers and other kitchen equipment. And development engineers have come up with a lot of alternatives to the classic corner carousel.

LeMans II

OPTIMAL FUNCTIONALITY FOR

more storage area
than a base unit with pull-out
drawers next to the blind corner!

WHY USING THE CORNER IS ALWAYS BETTER THAN LEAVING A BLIND CORNER

In addition, the clever design of the trays is an ideal fit for pots and pans, so that the actual, usable space increases by up to 70 %.

Customer demo: put as many pots and pans into a drawer/LeMans tray as will fit comfortably side-by-side (do not stack). Note: contents can even extend beyond the railing of a LeMans adding to space savings and flexibility.

Use of the available space is clearly better and more efficient in a LeMans.

LeMans II – SWINGS THE CONTENTS OUT IN FRONT

KESSEBÖHMER

ClickFixx for ultra-easy,
errorproof assembly

With the door opened only 85°,
the trays will run out completely

Newly designed fitting with
height-adjustable trays

Where is the connection between the Le Mans racetrack and Kesseböhmer's LeMans intelligent corner unit solution? It is their instantly recognisable shape and function. Efficiency, innovation and high emotional content are always in the foreground.

With Kesseböhmer's LeMans II, the success story surges ahead with new features and innovations. The intelligent corner unit system is setting new standards with new engineering quality and fascinating movement sequences.

LeMans II

UP TO
50KG LOAD
CAPACITY

LeMans is an extremely robust storage system with a load capacity of up to 25kg per tray. Damped self-closing means whisper-quiet closing even fully loaded. The patented 4-arm articulation system swings the trays out of the cabinet in a smooth and fluid movement. Users select tray heights to suit their needs and cut out wasted space. With optimal access at all times, LeMans makes perfect use of corner space!

25kg =  

Your Benefit:

- Swinging curves: Fluid, emotion-laden, harmonious action
- Kinematics with 4 pivot points: Minimal force required for silky-smooth movements
- All stored contents swing out in front of the unit
- Easy height changes: The unit adapts to the contents
- Trays move independently
- Solid support arms: 25 kilo payload
- Fully functional at 85° door opening angle: Flexible planning options; No risk of handles colliding
- Multiple interfaces for the assembly process: Easy to integrate in existing production processes

LeMans II – the most elegant and effective way of designing a corner unit

MagicCorner – A BRILLIANT SOLUTION FOR CORNER SPACE

The name says it all. Although this has less to do with magic than with cleverness and technical refinement!

MagicCorner is capable of housing two complete cabinet equipments beside each other in only one corner cabinet.

With one movement, the intelligent sliding technology simultaneously drives the front and the pullout rack into the users viewing and access area. As one would expect of Kesseböhmer, this occurs in a flowing, silent train of motion. Closing even nearly functions by itself. A small push is sufficient – then SoftSTOPP takes care of closing. Quiet and smooth.

KESSEBÖHMER BASE CABINETS

To make intelligent use of the whole width of a kitchen, you need a fitting that moves the stored items out in front of the cabinet – so that you have a clear view and easy access. Regardless of whether you want to store cleaning agents, a mixer, or a pressure cooker, the most practical solutions are content-specific pull-outs. They make best use of the available space and guarantee easy access.

No.15 USE THE NARROWEST NICHES

KESSEBÖHMER

Good
ideas

fit in everywhere. With its Kesseböhmer pullouts, the No. 15 cabinet is much more than just a welcome filler. When placed by

the oven, the No. 15 pullouts are the convenient solution for spices or the indispensable towel. The high quality chrome equipment lends even these smallest cabinets in the kitchen that special touch of elegance.

Your Benefit:

- Larger unit solutions for carcass widths from 150 mm
- A lot of space for spices, towels and trays
- Make practical use of even narrow gaps
- A slim pull-out: Minimum width (from 112 mm) – maximum flexibility
- 3D front adjustment: Perfect gap alignment in minutes

No. 15 Narrow unit – substantial benefits

COMFORT II – THE SPECIALIST IN GREAT TASTE

 KESSEBÖHMER

Ultra-easy ClickFixx connection between frame and runner, simple 3D fine adjustment for the front panel, absolutely smooth action, efficient use of space thanks to height-adjustable trays – that's the COMFORT II.

The compact 30-cm base unit pull-out lets users fill every centimetre and customise the pull-out to suit their special requirements. The COMFORT II is ideal for storing cooking ingredients; it provides an amazing amount of storage space plus a clear view of all the contents. The pull-out glides softly and smoothly out in front of the cabinet. Everything needed for a great meal is instantly ready to hand.

Kesseböhmer has added the option of a Utility Tray to its tried-and-tested COMFORT II pull-out. The Utility Tray is the perfect add-on for the COMFORT concept. The Utility Tray is made of a single piece of shaped, powder-coated metal. It was designed to be as deep as possible, but still allow a clear view and easy access to vinegars and oils and other items stored in the lower trays. It offers an amazing amount of storage space to take a lot of container jars.

It's surprising how much space there is in the pull-out and how flexibly it can be used.

YOUR ARRAY OF SPICES AT A GLANCE

 KESSEBÖHMER

Improved action!

The technology in a
COMFORT II runner element
meets all the criteria for
a contemporary
pull-out system.

Creative cooks produce masterpieces in the kitchen, but cooking is only stress-free if all the ingredients are ready to hand. Inspired and expert use of herbs and spices rounds off a perfect dish. So why not store spice jars close to the hob? In a COMFORT II, they'll be in clear view and easy to get at, along with the vinegars, oils, mustard, sherry and sauces?

Like the familiar COMFORT trays, the new Utility Tray is simply dropped into place on the COMFORT frame.

So cooks can organise the COMFORT II just as they please.

DISPENSA JUNIOR SLIM

SMALL.
STRONG.
CLEVER.

**The Junior slim in the Dispensa range
is a master of small recesses.**

Starting from a width of just 200 mm, this modern base unit pull-out provides a perfect view of the stored goods and access from either side. The outstanding stability comes from the centrally guided fitting. Even in the smallest units, individuality is a priority.

Which is why the Dispensa junior slim comes with lots of planning freedom with all the ARENA tray variations. The “everything at your fingertips” effect is rounded off intelligently by the modular YouboXx fittings.

This is orderliness without searching.

MiO

My intelligent Organization

<https://bit.ly/2rcr2vQ>

REDUCED TO THE MAX

— THE ABILITY TO ORGANIZE —

The kitchen is the culinary centre, but it's not the only part of your home that has to meet escalating demands for design, ergonomics, storage space and functionality. Creating a system that is right for any size of room requires creative flexibility in planning and an innovative look – with functionality and style that is right for any area of your home, even wet rooms.

MiO does it all. It's a system of pull-outs for base units, wardrobes, cabinets and beyond developed by Kesseböhmer that successfully blends contemporary design with optimal functionality. Modularity lets you configure custom pull-out solutions to optimize your storage.

It lets you make optimal use of your storage space, with effortless pull-out action, fantastic design and the latest technology – Designed in Germany.

FEATURES & BENEFITS:

- For carcass widths 400 to 900 mm
- High-end look with glass panorama sides as standard
- Modular organization systems for plateware, cookware and cutlery
- Organizable storage for kitchens, bathrooms and living areas
- Easy to clean and care for
- Choice of widths and heights for versatile solutions
- Modern runner technology with easy, effortless action
- balancePRO to compensate for cabinet tolerances

MiO Applications

INDIVIDUAL, VERSATILE AND VARIABLE.

MiO APPLICATIONS

CUSTOMIZE YOUR STORAGE SPACE

Freely combinable with MiO interior and organization pullouts.

Individually compiled organization pullout for optimum dishes storage.

High-end look with glass panorama front and sides as standard.

SPECIALS

iMove

INTELLIGENT MOVEMENT

KESSEBÖHMER

The iMove fills a gap in the market and its potential for success is based on the law of supply and demand. Before starting development on the iMove, we commissioned extensive research on how people use wall units. The results were clear.

What most people store in their wall units is

1. Crockery and glasses
2. Food, including oils, spices, nibbles and treats.

The iMove was purpose-designed for perfect storage of these

two categories. The basic idea is to split storage functionality between the fixed bottom shelf and the mobile iMove upper shelves. It makes sense to store heavy stacks of plates, for example, on the lower shelf of a wall unit and store the lighter food items, like packets of cereal, at the top in the iMove. It's a logical arrangement and both sorts of items are easy to reach.

LINERO MosaiQ

VERSATILE, VARIABLE, EYE-CATCHING DESIGN

KESSEBÖHMER

LINERO MosaiQ is flexible and versatile, offering users a huge choice for configuring the space between the worktop and the wall units. The multi-functional, anodised aluminium rail can be either screwed or glued to the wall, making it ideal for glass splashbacks too. Used as a light strip, it casts a warm-toned, indirect light over the attached elements.

The MosaiQ shelf elements are hung on below the rail or clipped on above it. The shelf elements come in a choice of three heights and two widths. Horizontal strips on the shelf elements accentuate the design. The three sophisticated grey tones of the

mat, tactile coating were chosen in consultation with experts at a well-known design institute. Functional elements include various hooks and single and double roll holders. There is also a specially designed knife block and holders with an angled bases, for example, to take a pot of herbs. LINERO MosaiQ has been launched with ten core applications which users can mix and match as they please. It's the perfect way to make the most of the midway space in kitchens and bathrooms. LINERO MosaiQ elements and LINERO 2000 elements are compatible when they are attached below the rail.

Practical and sophisticated

FLEXIBLE DIVIDING

THE NEW „FINELINE LINIQ“ FITTING SYSTEM WAS DEVELOPED WITH THE AIM OF REDUCING COMPLEXITY AS MUCH AS POSSIBLE.

The kits, preconfigured as sets for the interior fitting out of pull-outs and drawers, are presented in three colours: light oak, Nordic ash and Javan ash.

There are benefits to this system for logistics and for presentation, both resulting from the reduction in different versions. Thanks to the homogenous and consistent look, there is no irritating colour contrast showing through from the base of the drawer. The sets can be used either for chamfered drawer frames or for straight-edged frames.

MiO Wardrobe

PRESENTS YOUR CLOTHES PERFECTLY

KESSEBÖHMER WARDROBE ACCESSORIES

MiO presents your clothes perfectly.

The panorama glass not only enhances the aesthetics, but also makes it convenient to find the right garment in a jiffy.

The ultra-narrow sides make optimum use of the space and the floating glass prevents dirt and keep the clothes clean.

Aesthetically yours,
MiO

CONTEMPORARY DESIGN WITH FRESH TRANSPARENCY

—  KESSEBÖHMER —

CONTEMPORARY LADDER FRAME DESIGN

YouK reflects on the bare essentials with its simplicity.

SIMPLY COHERENT GRIDS

For more assured planning and installation

UNIFORM APPEARANCE

Thanks to the welded frame connection, there are no intrusive connections and dividing lines in the vertical appearance.

EXTREMELY EASY ASSEMBLY

YouK is quickly assembled in just a few steps without any complicated technology.

CAN BE USED IN ANY LIVING ROOM/SPACE

Ideal thanks to the individual choice of shelves.

HIGHLY SCRATCH-RESISTANT

The finish always stays brand new because of the high Teflon content in the surface finish.

COSINESS IN THE KITCHEN, THE KITCHEN IN THE LIVING ROOM.
 Rooms merge into a modern living space without borders. The industrial style of the flexible but compelling YouK shelving unit suits this well as it adds functional highlights to any area.

In the kitchen or office, as a wall unit, in the bathroom or as a wardrobe.

Depth: 200 mm

Depth: 320 mm

Simple fixture to the wall

Simple screw fixture
of the shelves

Abrasion-resistant
surface

THE VARIOUS GRIDS PROVIDE DIFFERENT HEIGHTS TO PLAY AROUND WITH IN COMBINATION WITH THE CUSTOMER'S CHOICE OF SHELVES (NOT INCLUDED) AND SHELF THICKNESSES.

YouK ladders can be placed on the floor or hung on the wall with screws and various different heights can be combined with each other.

CLEVER STORAGE

**QUALITY
WE FEEL STRONGLY
ABOUT OUR PRODUCTS.**

We want you to enjoy using them throughout their long service lives. This is why we subject them to exhaustive quality, endurance and safety tests. We achieve high and lasting quality through strict quality management with continuous monitoring and testing. The effective forces, tight manufacturing tolerances and movement distances are all sensor checked. The spring forces generated in the fittings are monitored to ensure that the high-precision movement sequences and dimensional accuracy in the adjustment range are maintained within tight tolerances. Only then are we satisfied and sure that our products will deliver what we have promised.

Our manufacturing processes are certified to demonstrate that we can meet product specifications. We set a high priority on durable, high quality materials and on high precision processing during our manufacturing processes. Samples from each batch are subjected to endurance tests. In addition, we use continuous camera-based process monitoring and maintain high occupational safety standards for our employees.

Our R&D engineers use the most advanced technical design aids and develop products that will be manufactured using the latest process technologies. The highest level of user-friendliness and convenience is a very high priority from the start. It's an ongoing challenge for us to combine outstanding engineering with elegant, aesthetically pleasing design. And we're naturally delighted if this symbiosis wins us awards.
